

“The new equipment has allowed groups to record members and their progress through badge work.”

Peter Kent

1st Guisborough LGO Scout Group

Project:

Purchase laptop computers to allow us to use the new Scout Association computer system

Subject:

Youth engagement

Location:

Guisborough, Redcar and Cleveland

Overview:

The 1st Guisborough Scout Group was awarded a grant of £1,000 to purchase a number of laptop computers.

This funding has allowed their section to access their in-house system, meaning they can now update the young people's progress and allow them to use these computers to complete training towards their IT badges.
