

“The boiler location was no longer allowed due to new building regulations, which meant that the entire heating and hot water system needed replacing at some expense.”

Andrew Steel
Business and Enterprise Manager – CAVCA

Coast and Vale Community Action

Project:

Church house heating

Subject:

Facilities and building improvements

Location:

Whitby, North Yorkshire

Overview:

Church House in Whitby is an established hub for the third sector, and accommodates vital groups such as Citizens Advice, Lobster Pot Nursery, Whitby Disability Action Group, Whitby Underground counselling service for young people, Totally Socially, Whitby Community Transport, the Youth Justice Service and Probation.

£5,000 was awarded to the action group to replace the heating and hot water systems in the house, including the purchase, installation and relocation of a new energy-efficient heating and hot water system.
