

“The funding has enabled the community of Sleights to have a football team, in addition to the existing cricket team, playing within the village which provides more opportunities for local people to participate in sport.”

**Peter Gaylor**  
Treasurer

## Sleights Sports Field Trustees & Management Committee

### Project:

Development and maintenance

### Subject:

Facilities and building improvements  
Health, well-being and sports

### Location:

Sleights, Whitby, North Yorkshire

### Overview:

The committee was awarded £5000 to part-fund essential maintenance, including a drainage and maintenance programme, at Sleights Sports Fields.

The development enabled Sleights Football Club to train and play during the winter months with minimal pitch damage, so that a cricket wicket can be used during the summer.
