Littlebeck Village Hall

## Littlebeck Village Hall

### Project:

Replacement of hall lighting

### Subject:

Facilities and building improvements

### Location:

Littlebeck, North Yorkshire

### Overview:

£5,000 was awarded to Littlebeck Village Hall to remove existing fluorescent light fittings in the main hall and car park and replace them with LED units with dimmers.

Users of the hall have already noticed an improvement in the lighting and appearance of the hall. Event organisers have been able to provide more flexible illumination that is fit for purpose, whether an evening gathering, social event, meeting or dance.

The stage and toilet lighting, as well as the hall frontage and carpark, has also seen vast improvements, and the charity has started to benefit from lower energy bills.
