

“Some of our team have lost partners and live alone. Our group helps to prevent isolation and depression, and the therapeutic qualities of gardening are widely recognised.”

Christine Buckley
Vice-chair

Moorsholm In Bloom

Project:

Maintain and sustain

Subject:

Facilities and building improvements
Environmental improvements

Location:

Moorsholm, Redcar and Cleveland

Overview:

£4,908 was awarded to Moorsholm in Bloom to purchase a self-propelling lawnmower and a ride-on lawnmower.

All of the group's work is carried out by volunteers who meet throughout the year to maintain the village, creating a sense of pride and cohesion.

The new equipment has greatly aided the work of the volunteers, most of whom are elderly and have some level of declining mobility. It has also ensured that the volunteers have remained engaged and enthusiastic.
